A short description of the shisha's origin.

“Desvall recovered tradition on developing an exclusive product, back in the origins of history. Inspired on Scandinavian culture, the shisha procedures are all handmade, the leaf choosing, the 1st class tobacco blend, and even the refined cut, everything meticulously handmade.

This process is followed by a strict quality system, the rigorous cleansing process guarantees that the leaves do not touch external materials. The flavors are inspired by the refined European cuisine.

Developed by renowned chefs, combining exotic and rich ingredients, resulting in bold and very special flavors.”
